

UTILIZING CELL PHONES & I PADS FOR JUSTSERVE.ORG

For those who utilize hand held devices for most of their electronic needs, JustServe.Org is available simply by downloading the available app to your device. Simply use your search engine to do so.

After installation of the app, just click on to the JustServe Icon and a search screen will appear. Type in your City, State and Zip Code into the text box. Then click on to the

“Advanced Search” prompt. A screen will appear which indicates a search radius for volunteer organizations. For your needs, a suggested radius would be 10 miles. Then scroll down the page to the “Search” prompt.

A list of volunteer organizations will appear and can be scrolled in it’s entirety if desired.

Choose an appropriate organization, then click on the site. An information menu will appear which indicates the contact person and their contact information. Simply email or call the contact person to volunteer. It's simple, easy, and the time spent helping others in need will be greatly appreciated.
